Chicago (April 3, 2006) – Fieldglass, Inc., a leading provider of contingent workforce management software, announced today the hire of Rick Onyshko as Executive Vice President of Professional Services. Mr. Onyshko is a seasoned software services executive with more than a decade of industry experience including stints at Ariba and PeopleSoft. His appointment is aimed at assisting Fieldglass customers and staffing partners drive even greater benefits from their use of InSite, the company’s flagship solution.

Prior to joining Fieldglass, Mr. Onyshko served in senior positions at iManage, Ariba, PeopleSoft and St. Gobain. As a leader for Global Solutions Delivery at Ariba, Mr. Onyshko built and led professional services at both an Americas and regional level. During his tenure there, his team completed the largest-ever deployment of the Ariba Buyer solution. At PeopleSoft, Mr. Onyshko built the professional services team for the Manufacturing Business Unit in the Midwest. That team completed the first deployment of the PeopleSoft manufacturing suite.

Mr. Onyshko plans to leverage InSite’s Software as a Service (SaaS) architecture to maximize the value of customer and partner deployments. “Fieldglass has provided a pure SaaS product since 1999,” says Mr. Onyshko. “Not only does this position us in front of the competition in terms of the efficacy of our technology, it means that the Fieldglass development team invests a significant amount of time building more compelling features and functionality rather than mired in implementation and customization challenges.”

Mr. Onyshko credits a strong professional services team with his decision to join Fieldglass. “This is a proven professional services group that is passionate about how companies get work done,” says Mr. Onyshko. “Their collective intellectual capital around contingent workforce management, combined with the proprietary tools and services they have developed over the years, is impressive. I look forward to extending the full value of this team to our customers and partners.”

Company executives expect Mr. Onyshko to have an immediate and significant impact on customer success. “We interviewed numerous candidates for this position,” says Jai Shekhawat, CEO and Co-Founder of Fieldglass. “We were not willing to settle for anything less than a big-leaguer with a proven track record for generating customer value. I am confident that Rick will help our customers and staffing partners leverage InSite to its full potential.”

**About Fieldglass**

For companies with large contingent workforces and the staffing firms that support them, Fieldglass provides an on-demand Contingent Workforce Management solution that improves the efficiency and effectiveness of the entire contingent labor supply chain. Unlike other solutions, Fieldglass enables profitable collaboration between companies and staffing firms to drive mutual value.
