*Award honors technology-driven companies in the U.S. founded and managed by individuals of Indian descent*

Chicago (February 8, 2005) – Fieldglass, Inc. announced today that it was named one of the top 100 technology companies in the U.S. by business technology publication *Silicon India Magazine*. The annual award-winning listing, named “si 100,” is comprised of top technology corporations in the U.S. founded and managed by executives or entrepreneurs of Indian descent.

The award recognizes Fieldglass as a leader in the competitive, ever-growing services procurement market. The comprehensive company list is chosen by a panel of distinguished CEOs, CIOs, VCs, analysts and *Silicon India*'s editorial board.

*Silicon India* acknowledged Fieldglass' market visibility, sustained growth and profitability as factors in its nomination. Fieldglass' flagship product is a vendor-neutral, Web-based application called InSite, developed to enable large companies to manage the complexities of global services procurement.

“We are honored to have been chosen as one of the top 100 companies by Silicon India,” said Jai Shekhawat, CEO and co-founder of Fieldglass. “There were many outstanding companies nominated for this award. We feel this recognition reinforces our commitment to providing leading-edge service products like InSite to our customers. Since 1999, more than 30 industry leading companies across the country have chosen Fieldglass as the solution for their services procurement needs.”

### **About Silicon India Magazine**

*Silicon India* is a 50+ page magazine that focuses on business and technology developments in the U.S., India and the U.K. It is written for business executives and entrepreneurs who are of Indian descent. The publication also covers social and cultural issues as they relate to business.

### **About Fieldglass**

Headquartered in Chicago, Fieldglass, Inc. ([www.fieldglass.com](http://www.fieldglass.com)) is a leading provider of vendor-neutral services procurement solutions for industry leading Global 2000 companies. InSite®, its Web-based enterprise application, creates a secure, private marketplace between customers and selected suppliers for sourcing, delivering and managing

third-party services, including contract labor, consulting and fixed-price projects. Able to interact with legacy systems, ERP systems and e-commerce platforms, InSite® allows organizations to extend the benefits of e-procurement beyond products into services, reducing costs while improving cycle times.
