SAP Recognized as a Leader in the Gartner 2020 Magic Quadrant for Procure-to-Pay Suites

Fifth consecutive time Gartner named SAP a Leader in the Procure-to-Pay Suites report.

SAP NEWSBYTE - November 17, 2020

SAP SE (NYSE: SAP) today announced independent analyst firm Gartner Inc. has positioned SAP as a Leader in its 2020 Magic Quadrant for Procure-to-Pay Suites report. This is the fifth consecutive time Gartner has named SAP a Leader in this report following an evaluation of SAP® Ariba® and SAP Fieldglass® solutions.

According to Gartner, “Growing pressure to reduce spend, drive compliance and improve efficiency continues to propel interest in the P2P suite market. . . . Gartner defines procure-to-pay (P2P) suite market as integrated solutions with automated workflows to request, procure, receive and pay for goods and services across an enterprise. These solutions are marketed as suitable for processing, at a basic level, all types of spending including indirect goods, direct goods and services. P2P suites optimize the purchasing process, resulting in improved financial controls, process compliance, cost savings (or cost avoidance) and mitigated risk.” Gartner evaluated 14 P2P suite providers on 15 criteria and placed SAP in the Leaders quadrant based on its completeness of vision and ability to execute.

“The experiences of this past year have put a spotlight on the importance of agility in procurement to manage unexpected disruption,” said Baber Farooq, senior vice president, Product Strategy, SAP Procurement Solutions. “SAP is uniquely positioned to respond quickly to changing market conditions and is the only provider that can help businesses manage all categories of spend. With process-level integrations across SAP Ariba solutions, SAP Fieldglass solutions and SAP S/4HANA, we will help our customers become intelligent enterprises and deliver business outcomes that propel growth and innovation during this challenging time.”

Additionally, in the Gartner Critical Capabilities for P2P Suites report,2 published November 2, 2020, SAP’s P2P solution suite ranked as the No. 1 vendor in the Services Focused use case, scoring 4.32/5. Gartner also scored SAP among the highest two for Indirect Procurement Focused (4.15/5), Direct Materials Focused (4.08/5), and Complex Environment Focused (4.04/5) use cases in the same report.

SAP Ariba and SAP Fieldglass solutions are part of the larger intelligent spend and business network portfolio from SAP, which also includes SAP S/4HANA® functionality for operational procurement and SAP Concur® solutions. The newly formed business unit brings together SAP’s solution and product engineering teams focused on procurement, external workforce management, and travel and expense management to help ensure SAP continues to lead the intelligent spend and business network markets while tapping into the broader portfolio so that customers benefit from a completely integrated suite.
