DIGITAL PARTNER NETWORK FOR SAP FIELDGLASS SOLUTIONS
ACCESS TALENT FASTER AND SIMPLIFY HOW IT IS MANAGED
CONNECT WITH THE DIGITAL PROVIDER ECOSYSTEM

In today’s fast-moving digital economy, organizations rely on external workers and services providers to help them get work done. These highly-skilled, flexible workers already account for roughly 44 percent of workforce spend and it is expected to grow significantly over the next few years.¹

To be successful, a company’s ability to source this talent quickly and manage it effectively is critical. Thirty-eight percent of executives state that they use online, on-demand services to access talent, and its usage is expected to nearly double (74%) in three years’ time.¹

To address this, SAP Fieldglass has leveraged its open platform to create the Digital Partner Network for SAP Fieldglass Solutions, an innovative, growing ecosystem that delivers seamless integrations with digital solution providers to help customers transform how they engage and manage the external workforce. With pre-built integrations, SAP Fieldglass makes it easy to connect our platform with complementary solutions across many categories.
SAP Fieldglass has established a standard, repeatable integration strategy for each category of providers in the network such as talent channels, on-boarding and off-boarding, candidate vetting, HRIS/LMS, supplier qualification, invoicing and taxation, payroll and compliance, time keeping and workforce scheduling, and more.

By creating a simple way to integrate, SAP Fieldglass solutions enable customers to streamline how they attract, engage, and manage the multi-channel workforce – including contingent workers, Statement of Work-based consultants, freelancers, and more. They are able to quickly connect with and secure the talent and services they need. Our differentiated integration strategy is setting the standard for the market as more providers are introduced that enhance our customers’ ability to interact more efficiently with external resources.

Key Benefits

Leverage pre-built integrations with complementary digital solutions

Access talent faster and simplify how it is managed

Increase enterprise agility and drive strategic value with the multi-channel workforce

As the landscape for managing external talent shifts, this digital network allows companies to connect with the ever-growing variety of emerging digital solutions that touch every part of an organization’s external workforce management and services procurement processes.
