A brief timeline:

- **1999**: SAP Fieldglass was founded in 1999. Created as an alternative to traditional staffing platforms, its founding was based on two simple ideas:
  1. To create efficiency and transparency in staffing and procurement using what would later be known as Software as a Service (SaaS).
  2. A continued commitment to the customer.

- **2010**: Madison Dearborn Partners LLC purchases a majority stake in Fieldglass LLC.

- **2014**: Fieldglass is acquired by SAP.

- **2019**: SAP Fieldglass celebrates its 20th anniversary on November 12, 2019.

Today, SAP Fieldglass provides the industry’s leading cloud technology for services procurement and external workforce management.

Since 1999, SAP Fieldglass has grown to deliver value to customers worldwide:

- **$53 billion** in spend under management
- **152,000** suppliers
- **180** countries
- **21** languages
- **211,000** statements of work created every year
- **2,600** timesheets processed every hour
- **321** new users added every hour

Those numbers come from 20 years of innovation and commitment to customers.
