EASILY FIND AND ENGAGE TEMPORARY WORKERS

Economic disruption has upended workforce requirements around the globe. To meet rapidly escalating demand, organizations that provide essential services need more workers than ever before. Yet ramping up your workforce when time and resources are already pressed can be difficult, and SAP would like to help. That's why we created the SAP® Fieldglass® External Talent Marketplace – a no-cost,* U.S.-based solution that lets you quickly find and hire temporary workers with the capabilities you require.

GAIN STREAMLINED ACCESS TO AGGREGATED TALENT

The SAP Fieldglass External Talent Marketplace gives you a single, centralized way to tap into the U.S. staffing industry's large pool of temporary labor so you can efficiently source essential workers across a wide range of sectors and positions.

A simple, streamlined process lets you post jobs in moments using preconfigured templates. Single-box search offers a speedy way to scan worker records across multiple staffing firms and identify candidates with the right skills. Chat functionality connects you directly with firms to ask questions and obtain additional information. And one-click hiring instantly submits your selections to staffing suppliers and generates a work order as soon as they accept.

These features and more make it easy for you to fill temporary roles faster and ensure business continuity during uncertain times.
