SAP® Fieldglass® Solutions: Integration with the Open Ecosystem

PUTTING THE PIECES TOGETHER

For more than 20 years, SAP® Fieldglass® solutions have successfully integrated with our customers' preferred partner applications across the external workforce ecosystem, including ERP, human capital management, human resource information system, timekeeping, and hundreds of other software solutions.

SAP Fieldglass solutions are agnostic: they integrate with all non-SAP core back-office systems and accommodate all standard in- or outbound data formats. They are also proven, enabling millions of master and transactional data calls to flow between our customers and their partners.

Ready-Made Tools for Painless Integrations

As a customer of SAP Fieldglass, you work closely with seasoned experts throughout the implementation process using our gold-standard integration tools:

- On the SAP API Business Hub, hundreds of SAP Fieldglass application programming interfaces (APIs) – in all standard formats – make it easy and cost-effective to tie into other applications of your choice
- App extensions available through the SAP Store streamline and expedite integration with timekeeping solutions, talent providers, and other key third parties in the external workforce ecosystem
- Guides and reference materials for configuring, managing, and using integration features and functionality are readily available on the SAP Help Portal

No Extra Layer of Bolt-On Middleware Needed

Only SAP Fieldglass solutions have Configuration Manager, a powerful integration tool that is part of the application. Super users in your organization can directly and immediately set up or change your integration parameters, or SAP Fieldglass solution experts can do it for you. Configuration Manager gives you direct access to connectors and related elements without the cost, delay, or risk of another middleware layer. An intuitive wizard within Configuration Manager helps enable, edit, manage, and troubleshoot connectors, as well as create and manage end points and API application keys.

What Our Customers Say

Customers using SAP Fieldglass solutions describe our integration capabilities as:
